

3030 SERIES

With Multi-Function 3NV Nozzle
PRESS, SPIN, CLICK

Important! Do not leave in off position in freezing conditions.

At the heart of the 3030 Series is the new 3NV Nozzle. Built with the precision accuracy of the 3TN, this innovative dial-nozzle combines multiple functions so you can “micro-manage” your system.

- » Quick-change — push & turn, audible “click”
- » Stainless steel spring for accurate and secure positioning
- » Covers complete nozzle range, using the same numbering and flow rates as the 3TN Nozzle System
- » Same color-codes as 3TN but odd-size nozzles have weather-enduring scalloped edge

Manage your system without ever having to remove a nozzle.
